\* Not reporting YTD 2021

The percentages represent the differences in number of rounds played comparing March 2021 to March 2020

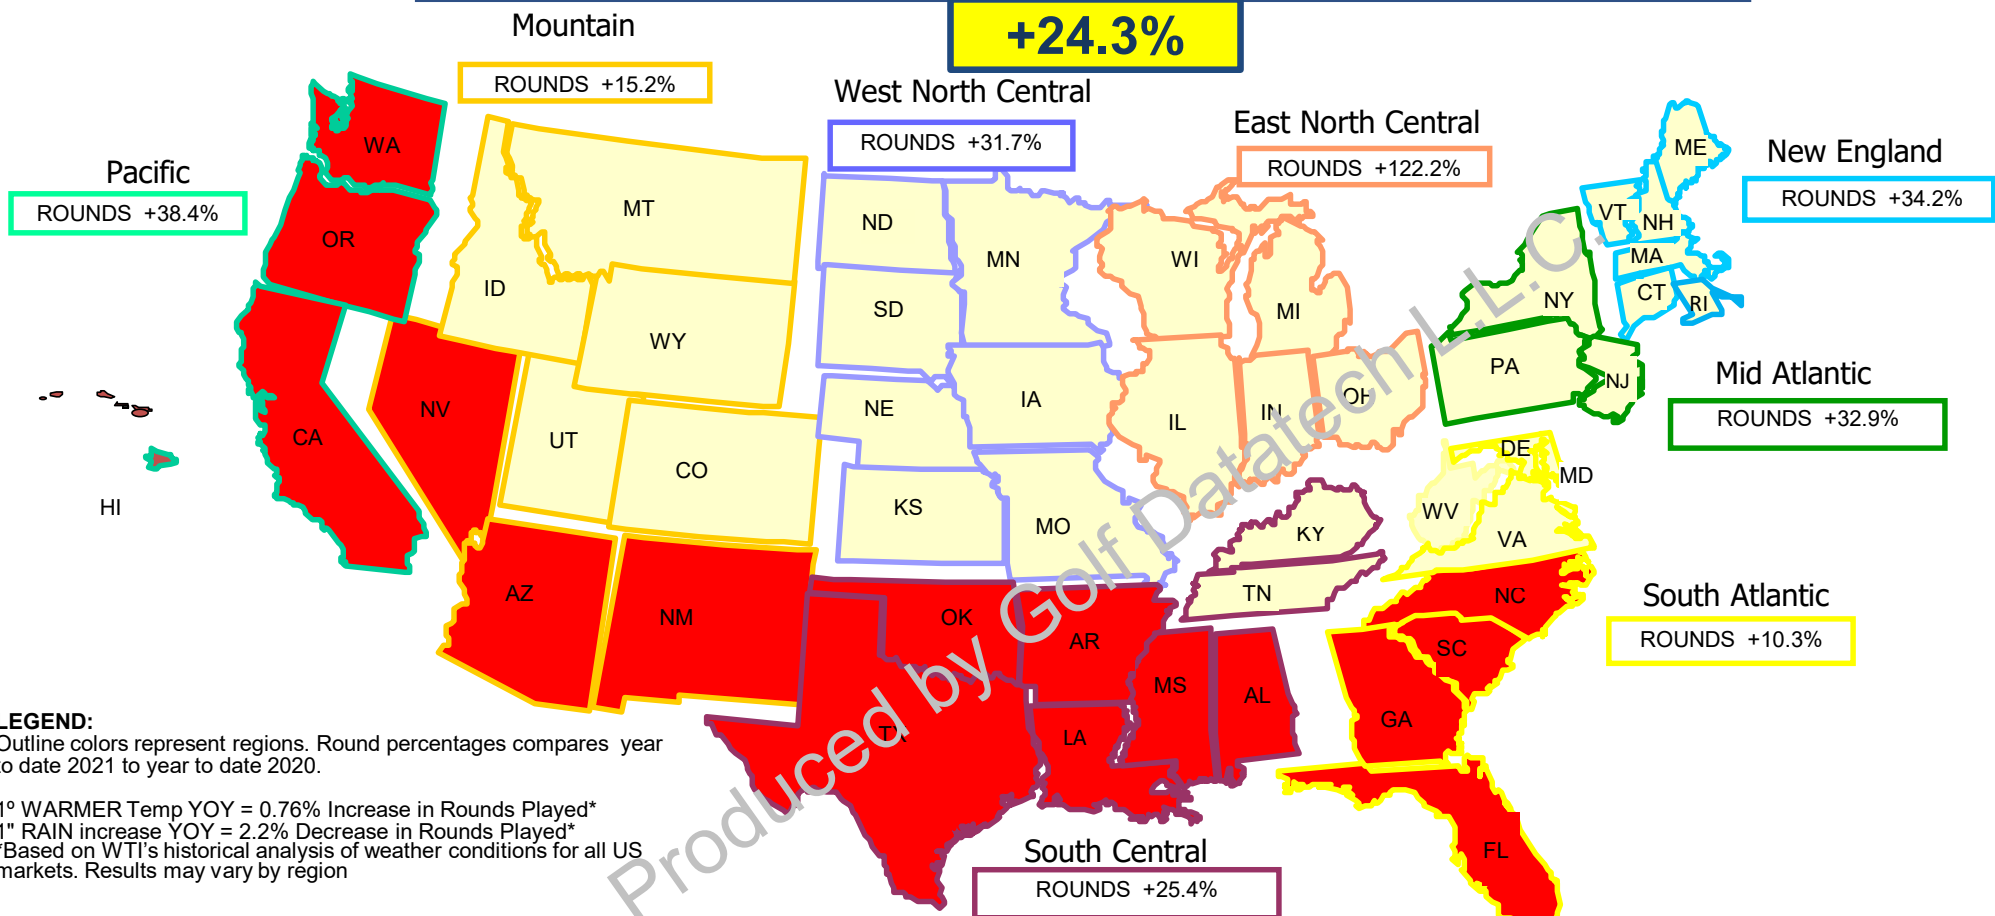

March 2020 began lockdowns, quarantines, and travel restrictions throughout much of the United States. The result of these quarantines affected the amount of golf played throughout the country.

The data comparing 2021 rounds to 2020 should be considered with caution. Many shops/courses were closed in March-May of 2020, the level of granular data we normally provide is not available.
